KEY FEATURES

-  7th Generation Intel® Core i-Series, Pentium® and Celeron® Processors with Kaby Lake microarchitecture
-  14.0" Full HD 1920x1080 (16:9) IPS LED-Backlit Display
-  Up to 32GB Dual Channel DDR4 RAM at 2133 MHz memory (two 260-pin SODIMM sockets)
-  Changeable 2.5" HDD/SSD, SATA interface PLUS Optional Ultra-fast 2200MB/s PCIe Gen3X4 storage
-  Dual Band Ultra-fast AC 8265 Wi-Fi with speeds of up to 867 Mbps + Dual Mode Bluetooth
-  44Wh removable battery provides over 7 hours of continuous power
-  Guaranteed security with TPM 2.0, Intel PTT and Kensington lock
-  Stylish, Super-Slim and lightweight design (22mm, 1.8kg) for extra portability

Milena 14u by Cetrix

Milena u-Series represents a new breed of mobile computers that are light, slim, fast and highly versatile with many connectivity, processing and storage options for the most demanding mobility applications in various fields.

Kaby Lake Processors: Fastest, Most Feature-Rich Intel® Processors Ever

The 7th generation Core processors, released in January 2017, are called Intel's "most significant processors" for a decade, due to the enhanced power efficiency and wire-free capabilities. Introduced in the same month as the Kaby Lake and building on the U-Series of Intel's 7th generation processors using only 15W of power and including 6xx GPUs, **Milena u-Series** was designed to bring the most power and performance out of the leading-edge technologies embedded into the Kaby Lake processors in a small laptop.

Milena 14u is equipped with a Full HD IPS display, up to 32GB of DDR4 memory, SATA3 and PCIe Gen3 storage interface, Intel 4th Gen Ultra-fast AC Wi-Fi, USB 3.1, Bluetooth 4.2, options for 3G and 4G broadband, standard security features like TPM 2.0, Intel PTT and Kensington lock are just some of the high-grade features of **Milena 14u**.

Connectivity You Never Experienced Before

Milena 14u embodies the fastest wireless chip in the market as standard feature. The Intel® Dual Band Wireless-AC 8265 delivers up to 3x faster Wi-Fi speeds (up to 867 Mbps) than 802.11n, with up to 3x more bandwidth per stream for more users and devices. It includes Dual mode Bluetooth® 4.2 that enables BR/EDR-Low Energy devices to act as a BT Smart Hub and peripheral at the same time.

With full support for Windows® 10 with Intel® WiDi and HCI drivers, you can now stream movies, videos, games, photos, connect with friends, and more with **Milena 14u** like never before.

Super-Slim Design With Lots of Room For Expansion

All the power and advanced features of **Milena 14u** are meticulously packed in a slim, stylish shell that is 22.8mm thin. But that is not the end of **Milena 14u**'s capabilities. A Full Size backlit keyboard with numeric keys and a lineup of accessories like Docking Station, MSR and fingerprint scanners, Mini Projector, Portable Soundbar and Hi-Fi Headphone, and designer backpack and carry-in case complement this advanced and affordable 14" laptop from Cetrix.
