ChargeMax S by Cetrix

Organizing for Charging

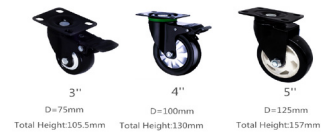

Clean, sturdy and organized device compartment is essential for proper device management. With lots of room for movement and simple cable management, ChargeMax S device compartment helps you organize your devices of up to 15" in size for charging.

Quality Workmanship

Special attention is paid to details of ChargeMax S with the aim of durability and safe and healthy service in educational environment. Round corners, flat surfaces, two powerful cooling fans, two rounded handles, and locks on all three doors are just a few of these considerations.

Admin Compartment

ChargeMax S has a compartment on the top section for the administrator or educator using the cart to store laptop, tablet, essential tools or stationary. The compartment is nicely blended into the ChargeMax body, and has a lock and key for security.

Two-level Security Lock

ChargeMax S has a 3-Point, vandal-resistant door lock system with keys on its main door for securing the 36 devices inside and preventing unauthorized access to the cart. The special lock is also equipped with a hole for padlock as an added security measure.

Power Management

The power compartment of ChargeMax S is roomy and easily organizable for simple management of device adapters and cables. The Smart Power System provides two levels of power protection, four selectable modes of charging, and operates on three separate charging zones. Two powerful fans keep the system cool even during long hours of operation.

Customization Options

There are various ways that you can customize your ChargeMax S. The type of external cable holder (basket or winding), the size of casters (from 3" to 5"), Plexiglass or tempered glass doors, special marking on the cart body, additional padlock hasp on any of the doors are some of the customization options available on ChargeMax S.
